

SMITHSONIAN DELEGATION AT OUR OCEAN

ANA SPALDING

Director, Adrienne Arsht Community Based Resilience Solutions Initiative

EXPERTISE: Marine and Forest Ecosystems, Science Equity and Environmental Justice

Dr. Ana Spalding is the Director of the Smithsonian's Adrienne Arsht Community-Based Resilience Solutions Initiative and senior staff scientist at STRI.

LISA BARNETT

Director of Development, Smithsonian Tropical Research Institute

OOC INITIATIVES: Engage in conversations around marine research, capacity building and resilience, and partnerships to support data-driven and community-based decision making

Lisa Barnett is part of the Advancement team at the Smithsonian Tropical Research Institute, forging relationships with donors to enhance scientific research and professional development.

MATTHEW LUTKENHOUSE

Deputy Director, Smithsonian Office of Global Affairs

EXPERTISE: MPA and small scale fisheries management and governance; island conservation initiatives; program design, management and evaluation

Matt Lutkenhouse guides regional and country level strategic planning and partnerships for the Smithsonian; he works with Smithsonian's science and research units to advance and expand applied research and to design and launch large, impact-driven programs.
